SERVICES

My IT services encompass a wide range of solutions tailored to meet your business needs. Whether you require robust cybersecurity measures, efficient network management, or cutting-edge software development, our team of dedicated professionals is committed to delivering excellence.

ANDROID DEVELOPMENT

Crafting sleek Android apps with engaging experiences, ensuring seamless functionality and optimal performance for users on diverse mobile devices.

WEB DESIGN

Elevating your brand with visually stunning websites, combining creativity and functionality to captivate audiences and enhance online presence effectively.

API DEVELOPMENT

Delivering robust APIs for seamless system integration, ensuring efficient communication between software applications and enhancing overall performance.

CYBERSECURITY

Ensuring data protection and securing digital assets with comprehensive cybersecurity measures, safeguarding against threats and vulnerabilities.

RECENT PROJECTS

MeowTea

Android Studio | Android

MeowTea is a mobile application designed to streamline the process of ordering milk tea beverages for users. It allows customers to select their desired items from a menu, create an order, and generate a QR code for a seamless in-store checkout experience.
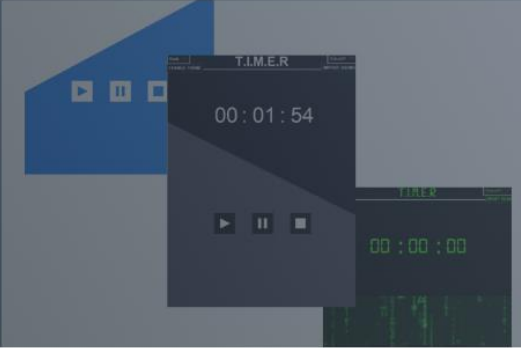

Znaked

Java | Windows

Znaked is a classic snake game but added a little twist wherein you eat different kinds of fruits that have different kinds of effects! Whether what fruit you eat will be random so be careful on your journey.

Timer w/ GUI

Python | Windows

Useful and easy-access program with an interface, wherein you can use a timer. You can choose between 3 themes / layout, three default sounds and as well as customizing the sound if you desire to.

ABOUT ME

Full-stack Developer

Passionate Full-stack Developer dedicated to creating captivating user interfaces with cutting-edge technologies, ensuring visually appealing designs, and delivering optimal user experiences for seamless digital interactions.
